

Dear Colleague

Please see the letter we have today sent to trainees regarding the Covid outbreak. Please note the essential contents of the letter which include a cancellation of all HEE teaching, a cessation of the normal switching of posts in April and the need for effective and adequate clinical supervision should trainees be redeployed.

We will be doing everything possible to help trust during this difficult period. Please do inform us should trainees need to be redeployed since we will need to put plans in place to ensure, that as far as possible, trainees can complete their training once business returns to normal.

Please do let me know if there are additional measures you feel we should be taking.

Best wishes

*Dr Jonathan Corne
Postgraduate Dean (East Midlands)*
